Tilt-In-Space Shower Commode Chair

CODE	SIZE	TYPE
A16	16"	Attendant
A16 18"	18"	Attendant

- Designed and field tested in conjunction with Occupational Therapists and Healthcare Professionals.
- Made from a white coated stainless steel frame this chair offers a safe, controlled and comfortable showering position for those with severe physical conditions.
- The Tilt-in-Space function also allows a better working posture for caregivers as well as better eye contact.
- The frame provides a durable, corrosion resistant finish and also includes an anti-microbial additive to help protect against the risks of cross contamination
- A dual gas spring assembly allows smooth operation via a single rear mounted control handle, providing a tilting angle of 0 to 30 degrees with an additional 10 degrees provided by the ergonomic angled backrest.
- The seat, armrest and footrest configurations are retrospectively replaceable to allow the chair specification to suit various degenerative conditions and enable recycling.
- Range of optional accessories available including fully adjustable head supports, foot trays, calf straps, pressure relief seating, side padding, harnesses and commode pans
- Available in 16" or 18" seat widths

Paediatric Commode, Toilet & Shower Seat

- Attendant propelled paediatric commode, toilet and shower chair
- Designed to allow simple specification amendments to meet the changing needs of children.
- Interchangeable wheels, seats, armrests, backrests, footrests and accessories.
- Sturdy one piece frame
- Durable powder coated finish
- 15" standard seat width
- 12" standard seat depth
- Flat padded, aperture and horseshoe seat options
- Optional full height fabric backrest

PRODUCT CODE: A20

Small Adult Commode, Toilet & Shower Seat

- 17" seat width
- Modular painted rigid one-piece mild steel frame
- Stainless steel swing-away footrests with composite height adjustable footplate
- Standard seat height (55cm/22")
- Painted stainless steel removable fixed height armrests
- Choice of seat options
- Fixed height backrest with choice of handles
- 4 braked castors - attendant propelled version

PRODUCT CODE: A06 - 17"

Chiltern Powered Hydraulic Shower Trolley

PRODUCT CODE: TRT1

KEY FEATURES

- Minimises the need to lift manually
- Waterproof
- Height adjustable through hydraulic foot pedals
- Three braked castors for safe transfers
- Drop down side rails
- Moveable drainage hose
- Padded liner and cushion
- Weight capacity 30 stone / 190kg
- Available in different colours
- Designed to allow a client to be easily transferred to the bathing area, showered, dried and clothed

The Chiltern Shower Trolley takes the risk out of bathing a high dependency patient. It is fully adjustable to ensure it can be set at the perfect height. A huge advantage to using the Chiltern Shower Trolley is that the drainage hose can conveniently be directed to any suitable waste outlet. The side rails can also be dropped down to aid in safer transfers for both the patient and the caregiver. The Chiltern Shower Trolley can also be used with an overhead ceiling hoist to prevent any risks associated with patient handling.

This Chiltern Shower Trolley allows the carer to easily transfer the user to the shower and reduced the need for manual lifting. It reduces the risk of injury to the carer and provides optimum comfort for the user.

Both sides of the trolley can be raised and lowered for easy patient transfers. The trolley's castors are lockable to ensure the always trolley stays secure. One of the castors is directionally lockable to give the carer more control when moving the trolley and the patient.

The Chiltern Paediatric Shower Trolley has a comfortable padded liner with a head rest to provide the user with the upmost comfort. The Chiltern Shower Trolley has a waterproof and comfortably padded liner with a head support to provide the user with the most comfortable bathing experience

KEY FEATURES

- Gently lowers the user in and out of the bath safely and securely
- Back reclines to a market leading 50 degrees, suitable for users in pain or need a hand to lower in and out of the bath
- Personal hygiene is improved with a cut out on the front of the seat
- Hygienic covers are also available and can be easily fitted and removed for extra comfort
- At its lowest setting, the seat, 6cm (2.4"), improves water immersion and is suitable for shallow baths
- At its highest setting, the seat, 48cm (19"), provides safety and comfort in deeper baths
- Easy to move and handle due to its lightweight material, 9.3kg (20.5lb)
- Can be separated into 2 sections for easy storage and transportation
- Suitable for most bathrooms, the modern appearance is aesthetically pleasing and slim-line
- Lift can be secured with the 4 suction feet that can be released quickly and conveniently
- The hand control has light touch buttons, floats and is fully waterproof and simple to use
- Hand control recharges quickly due to its lithium battery technology
- Indicator lights signal when charging is required and built-in safety feature prevents bath lift from lowering without sufficient charge to return it to top of bath
- Hand control has an incorporated emergency stop button for optimum safety
- This Bellavita Standard Bathlift has a weight capacity of 22st (140kg)
- Wide range of optional extras to enhance bath fitting and accommodate range of users including children

This Bellavita Bathlift is ideal for the elderly and those who struggle to get in and out of the bath. It has been ergonomically designed for greater comfort and safety to the user. The lightweight and slimline profile provides easy handling and storage.

Developed with professionals, with improved personal hygiene due to its front aperture the Bellavita bath lift gently lowers users with restricted mobility down to bottom of bath for bathing and relaxation then raises them to top again for safely getting out. The backrest reclines to a market leading 50° to suit users requiring greater hip-to-back sitting angle e.g. due to stiff hips.

Junior Plus Bathlift

PRODUCT CODE: AQJA0001J

KEY FEATURES & SPECIFICATIONS

- This reclining bathlift allows users to lower / raise themselves safely and smoothly in and out of the bath
- Fits most styles of bath including corner baths
- Reclining angle up to 40° makes full use of bath space to maximise legroom for transfers / bathing
- Separates easily into two lightweight sections for easy handling – backrest simply folds forward to detach
- Compact design saves storage space
- High seat travel allows safe, level transfers in deeper baths and low travel offers excellent water immersion
- Sturdy, plastic construction has highest weight capacity of any reclining bathlift – ideal for heavier users up to 170kg (26.7st)
- Easy clean surfaces facilitate cleaning of bathlift and bath
- Supplied with side flap protectors to allow smooth movement over bath handles
- Lifting bar on easy release suction feet assists to remove bathlift with ease
- Additional middle suction feet are available for uneven surfaces in baths
- Can be used with or without cover mats; these are easily removed for machine washing
- Lightweight, floating, fully waterproof hand control is comfortable to hold with soft touch, easy to operate buttons for users with limited dexterity or sight impairment
- Battery indicator light signals red when recharging is required
- Built-in safety feature prevents the bathlift from lowering unless there is sufficient charge to raise users to the top of the bath
- Easy attachment / detachment of battery and charger for recharging
- Wide range of accessories offer varying levels of support for children

The Seahorse Plus Toileting and Shower Chair from NRS is a development of the Seahorse Sanichair®.

After extensive feedback from carers, users and professionals it has been redesigned to improve the functionality whilst retaining the key benefits of the original.

The seahorse plus toileting and shower chair features increased comfort and suitable for any environment - both home and care. Equipped with height adjustable frame it has the ability to grow with your child and many more new features to ensure

Available in Small, Medium and Large.

LARGE RANGE OF GRAB RAILS

STRAIGHT STAIRLIFTS

If your staircase is straight and does not have any corners, we offer a fantastic range of straight stairlifts to suit your needs.

HANDICARE 1100

The Handicare 1100 is the slimmest stairlift on the market. The super slim line rail is the narrowest on the market so it obscures less of your stairs than any other straight stairlift system. The Handicare 1100 also features continuous charge functionality, so you can park the seat anywhere you like on the rail and it will stay charged.

HANDICARE 1000

The Handicare 1000 features a range of customisable options including a choice of seat colour and optional powered swivel and footplate.

It is also available in XL and XXL sizes which cater for weights up to 200kg. The 1000 can also be configured with a powered hinge to prevent the track obscuring a doorway.

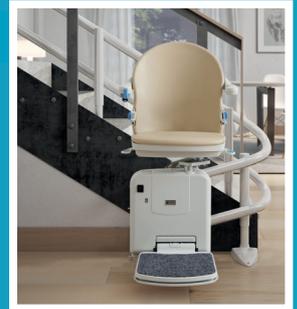

CURVED STAIRLIFTS

Curved stairlifts have tracks that are specifically designed to suit staircases that turn corners. Customisable options include a choice of seat style, rail colour, upholstery colour and powered options.

HANDICARE 2000

Ideal for short stairs of 5m or less. The compact twin rail curved system is designed for a stable and smooth ride.

Available in 2 seat options; the Simplicity and the Style.

VAN GOGH

This stylish single rail curved stairlift fits on the external side of the staircase and comes with 7m of track and includes two 90° bends as standard. The Van Gogh is ideal for staircases with multiple turns.

REMBRANDT

Similar to the Van Gogh this stylish single rail curved stairlift fits on the internal side of the staircase. It comes with 5m of tracks and includes two 90° bends as standard.

Free Stairlift Assessment Course

We are offering a free CPD course to assist Occupational Therapists when accessing for a stairlift. Please contact your local sales representative to find out more.
