- Crash tested
- Available without anti-tip wheels for €139.50

€166.75

The new Excel G-Logic 'Basic' wheelchair is a lightweight wheelchair equipped with lockable brakes on the rear wheels as standard, this enables an attendant to easily lock the wheelchair in position should user need to remain stationary for a period of time. The armrests of the wheelchair are three quarter length to enable easy access to desks and tables. Designed for easy transportation, the wheelchair is foldable so the total width is limited to an average width of 30-35cm.

In addition, the foot plates are adjustable in height with an Allen Key provided and the wheelchair is equipped with 7" front wheels and 12" rear wheels. The 12" rear wheels make the wheelchair easy to transport and come fitted with a stepper and anti-tip wheels for added safety.

Excel G3

PRODUCT CODE: G3EXCEL18SP-TR

Better Living

G-Logic

PRODUCT CODE: GLOGIC18SPTIP

The Excel G-Logic is a very agile lightweight wheelchair that suits the more active user with its sporty looks and 4 degree seat angle which provides comfort and an ergonomic posture.

Weighing just 11.5 KG this lightweight wheelchair is very nimble thanks to its new rear wheel which is based on the cycling industry. The sleek aluminium hub, lightweight rim and push rim give this wheelchair a more sporty feel and appearance.

The G-Logic is the latest incarnation of the successful and popular G-Lite Pro series, so the chassis is tried and trusted.

When it comes to transportation there is a smooth quick release mechanism that folds the wheelchair in one easy motion. This wheelchair has also been crash tested to enable the user to stay seated when in an adapted vehicle.

Once folded it's narrow enough to fit in public transport storage areas or the car boot.

KEY FEATURES & SPECIFICATIONS

- Seat width options: 40cm (16"), 45cm (18") and 50cm (20")
- Available in Transit (12" wheels) or Self Propelled (24" wheels)

The Tiempo is an extremely comfortable and lightweight 4 mph travel scooter. Robust and highly manoeuvrable, this scooter is great for both indoor use as well as light outdoor use. With its all new and striking modern design, the Tiempo is the ideal solution for very active users.

The design of the scooter makes it very simple to break down into 5 pieces with a handle on each part to help with lifting. Not only does the Tiempo have a new and improved Delta steering wheel for added comfort, the wrap around style minimises strain on the wrists which allows for both left and right handed operation. The front lights have also been upgraded to LED lighting for better visibility and energy efficient longer lasting bulbs. These lights have also been proven to help reduce the risk of accidents.

Top Speed: 4 mph

Range: Up to 16km

User Weight: Up to 113 kg

Memaflex Cushion

Memaflex pressure redistribution memory foam cushion designed for at risk patients. Features a multi stretch PU cover that is waterproof and vapour permeable. Features high frequency welded seams and a fully concealed zip and the cover can be completely removed and laundered. The white inner substrate makes staining easy to identify.

16"x16" : Code CUSH/MF/41/41/7.5

17"x17" : Code CUSH/MF/43/43/7.5

18"x18" : Code CUSH/MF/46/46/7.5

20"x18" : Code CUSH/MF/51/46/7.5

KEY FEATURES

- #1 ON HSE CONTRACT 9232
- High frequency welded seams and a fully concealed zip reduces the possibility of fluid ingress and aids infection control
- Multi stretch PU cover is waterproof, vapour permeable and impregnated with Acti-fresh biocide to help prevent the build up of bacteria and ensure it can be easily cleaned to aid disinfection protocols
- White inner substrate (underside of the cover) helps auditing procedures by making staining easy to identify
- Cover can be completely removed and laundered up to 80°C to aid decontamination protocols
- Temperature sensitive viscoelastic foam moulds to the shape of the body providing greater weight distribution & pressure reduction
- Slip resistant base
- Height of cushion: 7.6cm
- Sizes available: 16"x16" | 17"x17" | 18"x18" | 20"x18"
- Max user weight: 167kg
- 2 year warranty

FROM €34.50

Air Layer Cushion

When seated the risk of skin breakdown on the buttocks is reduced if the patient's microclimate is controlled and pressure is distributed. The Air-Layer cushion features a block of viscoelastic foam that conforms to the buttocks, redistributing pressure and an 'Air-Layer' to reduce heat transfer. The cover is waterproof, multi-stretch and vapour permeable with welded seams to reduce the risk of fluid ingress.

16"x16" : Code CUSH/AL/41/41/7.5

17"x17" : Code CUSH/AL/43/43/7.5

18"x18" : Code CUSH/AL/46/46/7.5

20"x18" : Code CUSH/AL/51/46/7.5

KEY FEATURES

- #2 ON HSE CONTRACT 9232
- Microclimate management which reduces heat transfer rates by over 50% and vapour transfer rates by over 25%, thus improving the micro-climate between the patient and the support surface
- Anti-microbial coating with Viscoelastic foam
- Welded seams
- Multi-stretch cover
- Water resistant cover
- Waterproof concealed zip
- Zip cover and welded seams
- High specification foam
- Vapour permeable cover
- Slip resistant base
- Height of cushion: 7.6cm
- Sizes available: 16"x16" | 17"x17" | 18"x18" | 20"x18"
- Max user weight: 167kg
- 2 year warranty

FROM €45.50

Serenade Cushion

KEY FEATURES

- #1 ON HSE CONTRACT 9232
- High risk cushion
- Silicone gel encased in viscoelastic foam
- Anti-microbial coating
- Welded seams
- Multi-stretch cover
- Support strap
- Open cell foam and vapour permeable cover
- Water resistant cover
- Slip resistant base
- Height of cushion: 8cm
- Sizes available: 16"x16" | 17"x17" | 18"x18" | 20"x18"
- Max user weight: 160kg
- 2 year warranty

A pressure reduction surface is required when seated to reduce the risk of pressure ulcers on the buttocks. Gel cushions provide optimum support for patients when in the seated position. The Serenade Gel cushion contains silicone gel which reduces pressure and provides comfort. A support strap is incorporated under the cushion to ensure it stays in situ. The Serenade Gel cushion features welded, waterproof, multi-stretch and vapour permeable cover.

16"x16" : Code CUSH/SG/41//41/7.5	17"x17" : Code CUSH/SG/43/43/7.5

Excel 'Modular' Hemi is a member of the Excel 'Modular' family and therefore it includes a large number of components that are interchangeable within both the 'Modular' family as the first generation G4 and G5. Besides the standard features that are available with the Excel Modular, the Hemi allows a single leg amputee or single leg paralysis to be able to propel the chair using their working limb.

Excel Elise Buggy

PRODUCT CODE: ELISE

KEY FEATURES & SPECIFICATIONS

- One of the most popular and cost-effective strollers on the market
- Easy folding frame
- In-built lateral support padding
- Very lightweight - made from durable aluminium
- Variety of accessories available
- Five point harness, shoulder height adjustable (four levels)
- Dual rear wheel parking brakes
- Low maintenance - wipe clean fabrics with puncture proof wheels

Overall length	96 cm
Overall width	55 cm
Overall height	112 cm
Seat width	30 - 39 cm
Seat height front	60 cm
Seat height back	47 cm
Seat depth	26 - 27 cm
Back height	53 cm
Weight	7.1 kg
Max user weight	50 kg

The Excel Elise Travel Buggy is designed specifically for the older or larger child who is unable to walk, or if they can walk, need a little help. The Excel Elise covers an age range from 2 years to 8 years, although suitability is more dependent on size rather than age. It has an adjustable footplate which can be positioned at three levels to suit the child's leg length so the pushchair can grow with the child.

The Excel Elise has relatively small 7" wheels which are best suited to smooth urban surfaces, it is not recommended for use on rougher surfaces such as a cobbled street or park. The relatively small 'footprint' of the Excel Elise makes it much more suitable for use around town, inside shops or schools.

Robustly made with an aluminium frame, the Excel Elise is sturdy but still reasonably lightweight. It is tested for a child up to 50kg (7.5 stone) although most children will have grown out of the buggy by the time they would reach this weight. Whilst the Excel Elise may be used for someone with special needs the seat may be unsuitable if they require postural management support - if in doubt please seek professional advice.

Available accessories:

Lateral Supports

Vest Harness

Ankle Supports

Foot Restraint Straps

Sun Hood

Rain Cover

Foot Muff

Padded Back
